# Welcome Section

Congratulations!

You have made an excellent choice with the purchase of this quality MAXTEK® product.

By doing so you now have the assurance and peace of mind which comes from purchasing a product that has been manufactured to the highest standards of performance and safety, supported by the high quality standards of Qesh Ltd.

We want you to be completely satisfied with your purchase so this MAXTEK® product is backed by a comprehensive manufacturer's 3 year warranty and outstanding after sales service through our dedicated helpline.

We hope you enjoy using this product for many years to come.

If you require technical support or in the unlikely event that your purchase is faulty, please telephone or email our helpline for immediate assistance. Faulty product claims made within the 3 year warranty period will be repaired or replaced free of charge provided that you have a satisfactory proof of purchase (keep your receipt safe). This does not affect your statutory rights. However be aware that the warranty will become null and void if the product is found to have been deliberately damaged, misused and/or disassembled.

# General information & Safety Instructions

Rechargeable Polymer Li-ion battery inside headphones.

Do not dispose of batteries in your household waste.

Please contact your local authority for details on safe disposal.

- Never throw batteries into a fire or expose to excessive heat sources.
- If batteries are swallowed, please seek immediate medical attention.
- Always ensure correct +/- battery polarity when installing batteries.
- Do not recharge non-rechargeable batteries.

Batteries, should not be thrown away with your household waste. Contact your local authority waste disposal department, as they will be able to provide details of the recycling options available in your area.

Electrical and electronic equipment (EEE) contains materials, parts and substances, which can be dangerous to the environment and harmful to human health. Therefore waste electrical and electronic equipment (WEEE) must be disposed of correctly.

Equipment, which is marked with the WEEE logo (as shown on the left), should not be thrown away with your household waste. Contact your local authority waste disposal department, as they will be able to provide details of the recycling options available in your area.

To prevent possible hearing damage, do not use at high volume levels for long periods.

# Fitting The Headset

## Fitting the Mount

Undo the screws in the mount till the tips of the screws are still intact with the mount.

Slip the mount over the bottom edge of the helmet on the left side (as you wear it). Take care to make sure the mount fits under the padding. Adjust the mount till its in a preferred location and that the clip mounts are facing outwards. DO NOT over tighten the screw as you may damage the mount.

Insert the bluetooth module to test that it fits securely in place and that it doesn't obstruct the visor.

To remove the module, push back the clip on the top of the mount and slid the module up.

# Fitting The Headset

## Fitting the Ear Pieces

Find a comfortable spot close to your ears then attach the adhesive velcro pads. This may take several attempts to locate the best spot. Only attach the pads once you are certain you have the optimal position.

Once the pads are stuck in position attach the two ear pieces, again making sure the microphone is fitted on the left of the helmet (as you wear it).

The microphone must run along the wall of the helmet and that the microphone end falls just below the mouth and to the side.

Connect the bluetooth module to the mount and then the micro USB connector to the module.

Secure any loose wiring by tucking it inside the helmet padding.

# Charging Instructions

## Charging the Bluetooth Module

Before using the device you will need to fully charge it.

Insert the USB charge cable into the nano USB port on the module and the other end into a standard USB port or USB adaptor. When charging you will see a red LED. Once the charge is complete the red LED will turn off. A full charge normally takes about 4 hours.

### Please Note:

To maintain your battery please use it till flat and fully charge it for about 6 cycles, then drain and fully charge it once a month after that.

# Turning On/Off

## Turning On

To turn on the module, press the Power/Intercom button for 3 seconds until you hear a beep.

## Turning Off

To turn the module off, press the Power/Intercom button for 5 seconds until you hear a beep. The module lights will turn off.

### Please Note:

To maintain your battery please use it till flat and fully charge it for about 6 cycles, then drain and fully charge it once a month after that.

# Bluetooth

## **Pairing to a Smart Phone**

Make sure the module is off and you have bluetooth enabled on your smart phone. Press and hold down the Power/Intercom button for 8 seconds until you see a red and blue LED flashing.

Search for 'MAXTEK BT' from available device list on your smart phone and select it. If your smart phone asks for a password please use '0000'. The module will beep twice when the pairing is successful.

## **Pairing to another Module**

Make sure both receivers are turned off. Press and hold the Power/Intercom for 8 seconds on both modules at the same time till the LED's are flashing blue and red. Quickly press one of the modules Power/Intercom buttons to search for the other module. When successfully paired together you will hear a beep and the LED will flash blue.

It is possible to be paired to both a smart phone and another module at the same time. The intercom function will be ended in favour of answering an incoming call.

## **Reset the Pairing Memory**

If you have problems pairing, try resetting the pairing memory.

Turn on the relevant unit into standby mode.

Press the Power/Intercom button for 3-5 seconds till a beep is heard. This should be before the module switches off.

Let go of the button when the beep is heard.

# Music

## Music Controls

- Preselect the music (or GPS/SatNav App) you want to play from your smart phone or bluetooth MP3 player.
- Press the Multi-function button to Play/Pause the music.
- Skip tracks forward or backwards by using the jog wheel.
- Increase or decrease the volume by twisting and holding the jog wheel till the level is right. You will hear a beep for the highest and lowest level limits.

### Please Note:

Best audio results are when the smart phone or bluetooth MP3 player's volume is on maximum.

# Warranty Certificate

---

## Warranty

This product is warranted to be free from defects in workmanship and parts for a period of 36 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion, solely at our option with no charge for parts and labour. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product the consumer has under existing U.K. laws.

## Proof of Purchase

This warranty is valid for the original purchase and is not transferable. Please keep your purchase receipt as proof of purchase and as proof of the date of when the purchase was made. The receipt must be presented with the warranty card when making a claim under this warranty.

## Service during the Warranty Period

Please ensure the product is properly packaged so as to ensure that no damage occurs in transit. Also make sure that you have included a detailed explanation of the problem.

## Extent of the Warranty

This warranty is limited to defects in workmanship or parts. All defective products or parts will be repaired or replaced. This warranty does not extend to accessories.

## Normal Wear and Tear

This warranty does not cover normal wear and tear of the product or parts.

## Exclusions

This warranty does not cover the following:

- Any defect caused by accident, misuse, abuse, improper installation or operation, lack of reasonable care, unauthorised modification, loss of parts, tampering or attempted repair by a person not authorised by the distributor.
- Any product that has been damaged by lightning strike either directly or indirectly, or on a main's or vehicle outlet power surge or liquid ingress.
- Any product that has not been installed, operated or maintained in accordance with the manufacturer's operating instructions provided with the product.
- Any product that has been used for purposes other than domestic use.
- The product if it is located outside of the U.K. and Ireland
- Any damage caused by improper power input or improper cable connection.

Your statutory rights are not affected.
